House no:22-233/A
KPHB,Hyderabad, 500072

Summary

A self starter with 3+ years of Experience in Software Field.Have good passion towards to learning new technologies and motivated to to accept challenges in Programming.I have an ability to adopt the design quickly and code for the same.Keeping Professional standards make my code beautiful. Always take my work as my asset so I love to decorate it

React Native Developer (April'17-current), Zaggle

Zaggle is a Cashback based product which helps corporates and individuals enjoy gifts and experiences across multiple channels everyday; in the form of employee rewards and recognition, channel partner incentives, employee benefits, online shopping cash back and restaurant cash back.

initially we build the app on Native Platforms using Java and Swift,Then we migrated technology stack to React Native which handles both **iOS** and **Android** sharing common code

Team Size : 01

Concentrations : React Native, Redux, Android

Android Developer(April '16- April '17), Ask The Doctor

Worked on a healthcare engagement platform titled **Ask The Doctor** and built the native Android application which enables the user to interact with the Doctor via Email,Video,Phone,Live Chat and In Home Visit .Application played a key role in terms of user acquisition.

Work History

Technologies we included in making this app :

OpenTok,Java,and the best part is we designed our own library to perform Network Calls for fetching the response from servers.

you can see here: <https://github.com/trinadhkoya/mv-application>

Team Size : 01

Concentrations : Android

Software Developer (2015 Mar - 2016 April) ,Healthouts

Worked on Healthcare platform **Healthouts** with a team of two people.My responsibility to deliver the product for the user in terms of

Mobile Application whatever the functionalities Web Application hold.

We build a two android applications, which were designed for both Doctor and patient separately to check their Appointments and Questions and answers. This was completely a Second Opinion Platform which got selected for medical tourism concept at Beijing, China 2015.

Concentrations: Website UI, Android, AWS, HTML, CSS

Team Size : 2

Skills

Languages : Java, Python, JS

UI: HTML, CSS, JS

Framework : React Native, Redux, Django, Spring, Hibernate (Beginner), Slim.

Databases : Postgres, MySQL

Proficiency with **React Native, Android**, Web UI, Knowledge on Spring (Java based framework, Django Web framework for Python based Web Applications)

Public Artifacts

Tech Stack: **JAVA**

FreshChat:

FreshChat is a React Native Module which enables the support(chat) for react native Projects which works for both iOS and Android.As we don't have any Native Module from Freshchat ,we have built it our own.

Github Ref : <https://github.com/trinadhkoya/react-native-hotline.git>

Tech Stack : **React Native,Java,Swift**

ProgressBar:

React component used to indicate that the app is loading or there is some activity in the app.Currently,as we don't have Activity Indicator which supports both Android & iOS ,we built this tiny library and open sourced it.

Github Ref: <https://github.com/trinadhkoya/react-native-spinner>

Tech Stack : **React Native**

React Native Boilerplate : In Progress...

As React Native is a new Library ,We couldn't find best boilerplate so far to integrate and handle any kind of mobile application. So i realized some loopholes in every boilerplate especially navigation stuff.So,started working on this boilerplate with lot of passion and make it alive.

Github Ref: <https://github.com/trinadhkoya/react-native-app-boilerplate.git>

Tech Stack : **React Native,iOS,Android**

Education (1998-2014)

Jawaharlal Nehru Technological University,Kakinada,A.P (2010-2014)

Bachelor of Technology,Information Technology
