Cell:+91-9966777479
House no:22-233/A
KPHB,Hyderabad, 500072

Summary

A self starter with 2 years of Experience in Software Field.Have good passion towards to learning new technologies and motivated to to accept challenges in Programming.I have an ability to adopt the design quickly and code for the same.Keeping Professional standards make my code beautiful. Always take my work as my asset so I love to decorate it

---

Android Developer
2016 April– Present

Worked on a healthcare engagement platform titled **Ask The Doctor** and built the native Android application which enables the user to interact with the Doctor via Email,Video,Phone,Live Chat and In Home Visit .Application played a key role in terms of user acquisition

Technologies we included in making this app : OpenTok,Java,and the best part is we designed our own library to perform Network Calls for fetching the response from servers.
